

Advisory Committee for Yukon Education
May 10, 2017
Room 1 and 2

1. Welcome

Holly Fraser and Nicole Morgan co-chaired on behalf of the DM.

2. Review of minutes

3. Discussion

Curriculum and assessment: Paula Thompson and Nicole Morgan presented an update on the interim assessment guidelines, the results of the student assessment survey, the ongoing meetings with school communities and information about professional learning for teachers on the new Learning Branch website and at Summer Academy in August. Members were especially interested in how schools will support students in learning to self-assess the core competencies and use the ongoing feedback they receive in class from teachers to improve their learning. There was also discussion of how communities could support this new approach to learning in terms of more hands-on and experience-based learning opportunities with more guest presenters and outside the classroom activities.

Committee business: the Committee discussed updating the webpage, their draft Terms of Reference and breaking for the summer before their next meeting.

4. Action items:

- Committee members to review revised webpage content.
- Link to transition table for Grades 10-12 to be re-shared.
- Nicole to set up meeting with Yukon College to present curriculum.
- Next meeting will be in the fall; will contact Committee members in September to schedule it.
